

Moving to Furness for work: your planner

Bring together your confirmed work instructions, journey checks and written room terms. Fill this in for your own move; it is not a booking or a room offer.

1. Confirm work and arrival

Start date, induction and reporting entrance Confirm with your employer or training provider	
Earliest start / latest finish; days or rota Include training days and weekend work	
Move date and arrival plan Travel, key collection and a fallback if delayed	

2. Check the whole journey from each room option

A train time or town name does not establish the commute. Check services for your actual travel dates, including the way home.

Room option label and town Compare Barrow, Dalton or another place you are considering	
Outward and return journey First / last service; walks, changes, parking and final entrance	
Travel cost and fallback Include time and cost if a connection fails	

3. Record costs and the terms you actually need

Rent, charged period, included bills / caps Ask for missing costs; do not treat them as zero	
Cash due before move-in and first pay date Record deposits and advance rent separately; do not count rent twice	
Notice, time away and room requirements Sleep, kitchen, internet, parking and kit storage	

4. Finish your move-in list

- Ask what references or rental documents are accepted; confirm when they are needed.
- Check the room and inventory, agree key collection and record any issues at move-in.
- Plan first-week food, travel, address updates and local health services.
